TASTING NOTES

Young, bright, and crisp, with a hint of fizz, offering a delightful combination of flavors including green apple, citrus, and white flowers. Its delicate body is beautifully complemented by underlying mineral tones. This Vinho Verde variation pays homage to Colorado, capturing its spirit in every sip.

WINEGROWING

Grown with a focus on sustainability. These grapes are farmed on alluvial soils mixed with larger volcanic strata. A properly managed, umbrella like canopy allows for just the right air flow and dappled sunlight onto the clusters to achieve maximum quality. The soils of the vineyard site enhances the expression of character for each variety and lends to the uniqueness of the wine.

WINEMAKING

Picked early to combat rising pH led to a low alcohol level. Fermentation in stainless steel tanks and subsequent aging left the bright acidity and young lively, unripe fruit flavors. A small amount of effervescent CO₂ was added before packaging as is traditional with this style.
